CRYSEN REFINING, INC.

A CRYSEN CORPORATION COMPANY

P.2
A-70-1
RECEIVED IV-D-76
7/31/90

July 9, 1990

The Honorable William K. Reilly
Administrator
U.S. Environmental Protection Agency
401 M Street, S.W.
Washington, D.C. 20460

Dear Mr. Reilly:

The Ethyl Corporation has recently requested a waiver to permit the use of its HiTEC 3000 fuel additive in unleaded gasoline. We feel the additive is a logical response to a major problem and recommend that the waiver be granted.

Ethyl has demonstrated through its exhaustive testing program that several benefits are derived from using the additive. Tail pipe emissions, such as carbon monoxide and the nitrogen oxides are reduced significantly. Fuel qualities such as volatility and aromatic content are also improved.

We hope the EPA will give Ethyl's request every consideration.

Sincerely,

Harry W. McSwain
Vice President-Manufacturing
